

Introducing an exciting new Betta Blinds product...

New Generation

Vertical Blinds are the classic, ever stylish window furnishing. The curved blades of **New Generation** PVC Vertical Blinds give a wonderful draped appearance, and are exciting for customers looking for an economical, long lasting alternative to this popular style of blind.

Durable and low maintenance, the blades are made out of sturdy PVC in a variety of popular designer colours and styles.

Practicality, excellent control of heat and light, and smooth easy operation are key features of these functional blinds, which are a wonderful alternative to the traditional fabric vertical blinds.

- "Curve" Blade Style
- Available in 3 styles and 15 colours
- No unsightly weights and chains
- Colour matched to the most popular fabric range colours
- Backing: same colour back as front
- Easy to clean... just wipe away
- Durable, Fashionable
- Fade resistant – more light stability than many fabrics
- High density increases thermal and acoustic properties
- Composition: U.V. Stabilised PVC
- Blade width: 89mm
- Smooth operation on easy glide tracks
- Superior blackout, giving privacy and protecting furniture from the sun.
- Mould and water resistant – ideal for bathrooms and high humidity areas.
- Choice of controls: The operating controls can be fitted to the left or right hand side of your window and the blades can be drawn to the left or right, as well as split or centre drawn.
