

Outdoor Awnings

Auto lock Arm Awnings

Fabric roll-up awnings are ideally suited for windows that get full sun and have easy access. You can choose from the traditional spring operated system with side guides and locking arm or the roller blind system with an easy pull down and hook design.

Drop Arm Awnings

Drop arm awnings are very adaptable systems that can be designed to suit a wide range of needs. Custom designed and made with many variations and control options_ including tape, cord, gear or electric.

Folding Arm Awnings

The folding arm system is the patio awning that rolls away! Designed to maximise entertaining and leisure areas such as patios and verandahs, it is also ideal for cafés and restaurants. Available with or without a hood box and control options from manual gear-box to motorised systems including timers, sensors and remote controls.

Polycarbonate Awnings

Polycarbonate twin wall awning is light, tough and offers protection from all weather elements, including harmful UV without impairing light transmission. This is an extremely versatile Awning that can be utilised in many applications, including pergolas.. Available in flat and curved designs.

Aluminium Awnings

Our aluminium awnings are ideal for your exposed deck, patio or balcony. They are available in a range of Bull nose shapes, colour combinations, side trim panels or closed sides and feature a gloss white understructure.
