

roman blinds

so many
beautiful
looks
to create

roman blinds

Versatile and elegant, Roman Blinds are a creative decorating solution which adds glamour to any interior. Select from our Classic, Mode or Plantation styles. Roman blinds suit a variety of tastes and decors, and can be matched with our panel glides and roller blinds to give an elegant harmonised look throughout.

All of our
roman blinds
are beautifully
handcrafted,
resulting in a far
superior product
which we believe
to be the finest
on the market

Features

There is a stunning versatility to our fabric collection which will add glamour to any interior. We have a vast range of colours and textiles to choose from, in a selection of weaves and textures, including sheers, opaques and sunscreens. Selected not just for visual appeal, your fabric choice can also help protect your environment by taking into account, privacy, light, heat and glare.

State of the art fabric cutting technology eliminates fabric fray and the need for side hems, creating a cleaner, superior finish. A simple cord operating system gathers the fabric sections neatly and easily to control privacy and light. The unique front control system allows multiple blinds to butt together, removing the need to put your hand behind the blind to operate. A chain control operating system is also available.

Classic and Mode roman blinds feature a matching linea style or fabric pelmet. Plantation style timber battens and pelmets are available in a range of colours which co-ordinate with our Madera Natural timber venetian blinds range.

Control light and privacy with one touch of the remote. Roman blinds are available in both motorised and manual operation.

Our roman blinds are manufactured using aluminium headboxes which will not rust or corrode.
